### iPSCs: A Decade of Progress and Beyond (Keystone Symposia)

**Event date:** Mar 25, 2018 to Mar 29, 2018

**Event type:** CIRM-Funded Conference

**Event location:** Resort at Squaw Creek, Olympic Valley, California, USA

**Registration:** Deadline March 25th, 2018

CIRM is sponsoring Keystone Symposia's 2018 stem cell conference on "**iPSCs: A Decade of Progress and Beyond**" to be held **March 25-29, 2018** at the Resort at Squaw Creek in Olympic Valley, California, USA.

The four-day conference is organized by Drs. **Shinya Yamanaka** of Gladstone Institute of Cardiovascular Disease and the Center for iPS Cell Research and Application at Kyoto University and **Haruhisa Inoue** of the Center for iPS Cell Research and Application, as well as by Dr. **Yanhong Shi** of the Beckman Research Institute of the City of Hope. It will examine the progress that has been made in the field since Dr. Yamanaka made his Nobel Prize-winning discoveries; the current state of the art using iPSCs for disease modeling, drug discovery, organ regeneration, and cell and gene therapy; and the challenges and controversies still to be overcome.

Keystone Symposia on Cellular and Molecular Biology is a 46-year-old organization based in Silverthorne, Colorado, USA that convenes open, peer-reviewed conferences across a broad range of the life sciences.

For more information on the program, speakers and deadlines, and to submit an abstract or register, please visit [www.keystonesymposia.org/18C7](http://www.keystonesymposia.org/18C7).
